Senator John W. Baner is in at the home of his caughter, lars. Fred Harper, in Lynchburg, suffering from an attack of chills and fever, and has been ordered by his physician, Dr. Raleigh Martin, to remain in his bed for the present at least. Delegate Carter Glass' arrived here last.

Delegate Carter Glass arrived here last night from Lynchburg, and brought the intelligence of Senator Daniel's illness. He said that, while the great leader was not dangerously ill, yet it would be some time before he would be able to resume his convention duties, and that his physician had given the strictest orders that he must leave off all work for a time and recuperate his health. It is known that the arduous work of the Suffrage Committee has been a great strain upon Sena-

not surprised, though they are, of course, all deeply pained to learn of his sickness. Senator Daniel was to have come to Charlottesville yesterday in connection with the case of his client, Mr. John Armstrong Chanler, and from there to this city to present the minority report of the Suffrage Committee to the Democratic conference to-night. Now that he cannot be present, it is not definitely determined what course will be pursued as to the conference. It is the opinion of

to the conference. It is the opinion of some of the leaders that the body will meet to-night and then adjourn indefinite-ly, as there is no disposition to go on in

the absence of the distinguished chairman

All the members who heard of Senator Daniel's illness last night, expressed the deepest regret, and indulged in the hope that he would speedily recover and be able to return to his duties.

It is expected that after the contested

It is a pity that the southern republics cannot settle their differences by agreeing to unite. When Chile conquered Peru and Bolivia twenty years ago, she be-came the stumbling block of international barmony on the southern continent. She is still afraid of arbitration. She caused friction in the Pan-American conference at Washington in 1890, and she threatens to cause the failure of the one that was to have been held in the city of Mexi-co this year. But for her, a union of all the South American States would be possible, and they would be saved the blighting influence of revolution as well as the burdens of big standing armies. FIGHT IN THE COUNCIL.

The battle of the Bell Company for a

franchise has covered a period of nine months. In January last the company addressed to the city a communication expressing regret at the relations which had existed hitherto, and making a petition for a franchise. This communi-cation was read at the February meeting of the common Council and referred to the Street Committee. There the mat-ter remained for months. General Meany appeared as champion of the Bell Com-pany and Mr. A. B. Guigon for the opposition. There were many meetings of the committee, and the discussions of these gentlemen on the points at issue, entirely apart from their subject matter. were as nne models of the debater's art as have ever been heard in this State. An ordinance granting the company a franchise was framed by the committee and recommended to the Council by a vote of 8 to 4. This ordinance would vote of 8 to 4. This ordinance would have come up at a meeting of the Council on July 1st. On account of the death of colonel W. T. Woody a few hours before the time of meeting no meeting was held on that day. A called meeting was held on July 3d, at which ...e ordinance was adopted by a vote of 19 to 9 after a light of eight hours. The final vectors of 19 to 2 ordinance was adopted by a vote of 19 to 9 after a light of eight hours. The final vectors of the control o vote was taken at 3 o'clock on the morn-ing of July 4th. The ordinance then passed to the Board of Aldermen. That body met on July 9th. Major Allen moved that the ordinance be laid on the table until the action of the Supreme Court: the motion was carried by a of 9 to 8, and the whole matter was fore the Aldermen just seven minutes. On September 10th it was taken up from the table has same vote—9 to 8, amend-

night during the week. Several members last night said the Carnival would so distract the attention of members during the night that it would be impossible to get a large attendance at the con-ference. A serious practical diffi-culty is that the sessions of the convention during the day will prevent members from taking in the Car-nival. A great many of them have their wives and children here, and all have some lady friend among the thousands of visitors; while influential constituents and

other attractions to-night. The loss of yesterday may necessitate the postponement of taking the vote on the Treat-Gregory election contest from Tuesday until Wednesday. The resolution adopted Saturday, that the vote be taken Tuesday, was with the idea that two days would be necessary to complete the argument. The two last sneakers the argument. The two last speakers, Messrs, Quarles and Turnbull, are expected to make the "effort of their lives." and, should no others speak, one day will scarcely hold them both. Judge Quarles will advocate the seating of Mr. Treat, while Mr. Turnbull will close the debate
